

PipeCut 220 INOX

- Especially for stainless steel pipes
- Unique worldwide
- Worker guidance through engine load indicator
- With laser indicator for a perfect cut
- High precision due to more guide rollers
- All contact points made of stainless steel

Weight	11,5 kg
Range of use	20 - 220 mm
Max. pipe wall	14 mm stainless steel
Suitable for	Stainless steel

Technical data

Voltage / Power	220-240V | 1.600W
No-load speed	I=1.900, II=2.885 rpm
Max.Blade diameter Ø	140 mm
Mounting bore	62 mm

Part No.: 1351006

Scope of delivery
PipeCut, carrying case, 4 pipe supports, saw blade INOX 140, operating instructions, hexagon socket 5 and 2 mm

PipeCut 360 INOX

- Powerful motor with 2,500 W
- Worker guidance through engine load indicator
- With laser indicator for a perfect cut
- High precision due to more guide rollers
- All contact points made of stainless steel

Part No.: 1351011

Weight	17,5 kg
Range of use	75 - 360 mm
Max. pipe wall	20 mm stainless steel
Suitable for	Stainless steel

Technical data

Voltage / Power	220-240V | 2.500W
No-load speed	I=1.900, II=2.885 rpm
Max.Blade diameter Ø	190 mm
Mounting bore	62 mm

Scope of delivery
PipeCut, carrying case, 4 pipe supports, saw blade INOX 140, operating instructions, hexagon socket 5 and 2 mm
